Pollution Regulations Chapter 20: Reception facilities for ship-generated waste and cargo residues

Anette Pettersen
Fylkesmannen i Nordland

- virker til Nordlands beste

Purpose of the regulation

- Protect the external environment
- adequate reception facilities
- ensuring delivery of ship-generated waste and cargo residues to port reception facilities (“no special fee”)

Scope of application

a) All ships, Norwegian and foreign, owned or operated by the Norwegian state or by a foreign state calling at a Norwegian port. Including:

- fishing vessels
- pleasure crafts
- warships
- naval auxiliary vessels
- other ships

b) All Norwegian ports normally visited by ships falling under the scope of paragraph a).

Waste reception and handling plans

- Reception facilities based on need for delivery
- Waste and cargo residues received and managed in accordance to an appropriate plan → approved by the County Governor
- Plans may be developed in a regional context

Where are we now?

- Approving plans
- Motivating the municipalities and the ports
